

Arun Sanyasi - Portfolio PDF Placeholder

Instrumentation and Control Engineering | Portfolio document placeholder

Purpose

- This placeholder keeps the website download button active while the final portfolio PDF is being refined.
- Replace this file later with the final combined CV, project portfolio, certificates and recommendation documents.

Current Profile Focus

- PLC, SCADA, DCS concepts, industrial automation and electrical control systems.
- Industrial exposure in hydropower automation, ferro-alloy electrical systems and digitization workflows.
- Project work across health monitoring, PLC dam control, receipt digitization, road-safety detection and electrical analysis case studies.

Portfolio Content To Add Later

- Final CV or resume.
- Detailed project report and recommendation letters.
- Verified certificate PDFs for each online course.
